

Quantitative Export Factsheet

Instructions & Template

This Quantitative Export Factsheet highlights the prospects of a product exported by your country to a target market. It is an important decision-making tool for businesses and policy makers.

You will find most of quantitative data needed for its elaboration in ITC's tools.

Steps

- ☒ Select one export destination country and one product with a well-defined HS code and do your research using these sources:
 - Trade Map (www.trademap.org) for export-import flows and trade indicators
 - Market Access Map (www.macmap.org) for tariffs, non-tariff measures and trade agreements
 - E-ping (www.epingalert.org) for potential non-tariff measures
 - Export Potential Map (exportpotential.intracen.org) for promising markets

Some required information, marked with an asterisk (*), is not in these tools so you will need to search additional reliable sources.

- ☒ Fill-in the fields marked by brackets []
- ☒ Remove this page, instructions, borders, grid and brackets after filling-in the template.

Quantitative Export Factsheet

Laptops/Tablets (HS 847130) to United States
November 2025

[Place your logo here]

Introduction

This Quantitative Export Factsheet provides strategic information about exporting Laptops/Tablets (HS 847130) HS Code 847130 from China to United States. It provides reliable market intelligence from ITC and other sources about important variables including the market size and growth, competition, trends in prices, import tariffs and market regulations.

The Product

 [Good quality picture of the product]	
Total exports from [Your country] in 2024 to the world	USD 102,187,144
Opportunity Summary [Brief summary of why an exporter should consider exporting the product to the selected market – consider the market size, growth, competitiveness of your country, geographical proximity, ease of market access among other factors]	

Target Market - [Name of Country]

 [World map or regional map highlighting target market's country location]	
Rank in World for Imports of this Product	Not found in top importers
Capital City	Washington D.C. (Placeholder)
Population	333M (Placeholder)
GDP per capita	333M (Placeholder)
Currency	333M (Placeholder)
Languages	333M (Placeholder)
Country profile	[web-link to country profile] *

Size of the Market

In 2024 United States imported USD 49,969,257 of Laptops/Tablets (HS 847130)s from the world, which represented 28.34 % of world imports of the product. In the same year, United States imported USD 33,059,491 of the product from China, which means China has a 66.16 % of United States's imports.

Growth of the Market

Over the last five years, the value of United States's imports from the world of Laptops/Tablets (HS 847130) grew by -0.82 % per annum. This market performance was slower than the world's growth in imports of Laptops/Tablets (HS 847130), which grew by -0.2 %. So United States share in world imports of Laptops/Tablets (HS 847130) has been decreasing. It should be noted that in the most recent year 2023-2024 this growth rate was not sustained with the market growing by 7.95 %.

The value of United States’s imports from China grew by -8.77 % per annum over the last five years, which compared with the overall market growth means China lost market share.

[Line graph of target market’s total imports of the selected product in the last 5-10 years]

[Comments on imports’ seasonality aspects, if any.]

Unit Value*

The average unit value of [target market]’s imports of Laptops/Tablets (HS 847130) in 2024 was 102,187,144 USD/ [unit]. This was comparable to the world unit value for the product of 102,187,144 USD/ [unit].

Over the last five years, [target market]’s unit value has been varying. This should be seen in the context of the world unit value for Laptops/Tablets (HS 847130), which was varying.

The unit value paid by [target market] to [your country] was 102,187,144 USD/ [unit], meaning [your country] commanded a [higher / lower] than average unit value in the market. [Your country] ’s unit value has [appreciated/depreciated] over the last five years in this market.

Among the top five suppliers to the market, those countries whose unit value appreciated over the last five years include: [country 1]; [country 2]; etc.

With respect to the top ten suppliers, considering the [wide/narrow]; range between the highest unit value of 102,187,144 USD/ [unit] paid to [country X] and the lowest unit value of 102,187,144 USD/ [unit] paid to [country Y], we can surmise that the Laptops/Tablets (HS 847130) market in [target market] is [rather heterogeneous/somewhat homogeneous]. The heterogeneity may be a result of differences in the quality, variety and/or branding of the product.

*The unit value in a market is calculated by dividing the value of imports by the quantity of imports. It can be a useful proxy for the average price of the product in a market.

Competition

Supply to [target market]’s market for Laptops/Tablets (HS 847130) is concentrated, with the top three exporters, China; Viet Nam; Taipei, Chinese having market shares of 66.16 %, 27.12 % and 4.02 % respectively.

[Pie graph showing last year’s market shares of main suppliers of the selected product to the target market]

- Among the top ten suppliers to the market, those that have increased their market share over the last five years include Viet Nam, Taipei, Chinese, Mexico, Thailand, Canada, United Arab Emirates, India, Denmark, Costa Rica, Switzerland
- Besides [your country] other suppliers from Asia (proxy) include: Viet Nam, Thailand, Korea, Republic of, United Arab Emirates, Malaysia
